

At Dr. B. C. Roy College of Pharmacy and Allied Health Sciences young technologists are groomed with great care to equip them with both professional and personal skills which will hold them in good stead in their professional life. A series of lectures by distinguished professionals from the industry and the academia is arranged for a comprehensive teaching learning process. In addition to this, the college also organizes national seminars to bring academicians, researchers, industry leaders, experts and students on a common platform. In the last academic session following seminars were organized:

A seminar was organized to celebrate the 55th National Pharmacy Week, the theme of which was “Pharmacists for a healthy India; role in prevention and management of diabetes.” Dr Rajarshi Mukhopadhyay, senior consultant endocrinologist of The Mission Hospital presented a seminar on “Evidence base for the management of type 2 Diabetes Mellitus”. Dr Dibyendu De, Haematologist Consultant of The Mission Hospital delivered a lecture entitled “Awareness on Thalassemia”.

A seminar was delivered by Prof. Samir K Brahmachari, ex director CSIR on “Crowd Sourcing Innovation for real world issues- present status in India.” He discussed about the present scenario of India in various fields of science and the process of crowd source. He elaborated the needs and benefits of crowd sourcing in the drug discovery process.

A seminar was presented by Dr Anthony Gomes on “Research ethics for young students”. He highlighted upon the ethical principles which should be followed during carrying out of research work and subsequent publication of research work. He stressed upon the evils of plagiarism. The necessity and functions of the animal ethics committee in research were also discussed.
