Dear Sir,

We have pursued the policy for feedback collection and analysis implemented in 2018-19 to the last academic year 2022-2023. In this context, we have collected the feedback for programs (B. Pharma and M. Pharm) for the last academic year (2022-2023) in anonymous mode in through our college website (<https://bcrcp.net/feedback/index.php#>) and analysed the same *vis a vis* a comparison with the course attainments (from semester results of the students), attached herewith for your kind perusal.

As per the policy implemented in 2018-19, course feedbacks were collected and analysed with respect to percentage satisfaction level *vis a vis* course attainment for each course. Overall, it has been observed that both the satisfaction percentage and course attainment have been improved compared to last academic year. We acknowledge the recommendation of MAKAUT for encouraging students to pursue MOOCs based open online course for improvement of the teaching-learning component for the students. The faculty members were also counselled for implementing various newer teaching-learning dimensions for the students.

The document for MOOCs popularization in the institute as well as the outcome have been annexed with this letter. We would like to request you to kindly provide us an Action Taken Report (ATR) from your end based on our submission for further improvement of our courses and its transaction at our institute. It would further help us to comply the norms of regulatory authority such as NAAC, NBA and others.

## Feedback analysis on offered courses (2018-19)

### Policy/ Criteria for Feedback Analysis

- ❖ The feedback analysis on courses is performed based on course satisfaction level from the stakeholders (primarily students) which is focussed on both the course components, rationality for the students, its delivery, its transactions and relevant acumens.
- ❖ Every student in course feedback answers 5 questions per course from the dropdown list which includes excellent, very good, good, average and poor.
- ❖ In the web-based system, the feedback is converted into numeric as follows:

Excellent-5

Very good-4

Good-3

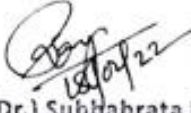

Average-2

Poor-1

- ❖ From this conversion, we get a total score and percentage satisfaction level against each course.
- ❖ After Collecting the feedback on faculty and course by the students, an online summary and detailed report is collected both in html and pdf format.
- ❖ The Course feedback satisfaction level has been classified as Good ( $\geq 80\%$ ), Moderate ( $<80\%$  and  $\geq 60\%$ ) and poor ( $<60\%$ ) based on feedback core by the respondents.
- ❖ The Course attainment has been measured based on result analysis whose metrics have been assigned as:  
Attainment 3- 80% or above number of students from that particular batch obtained Grade C (Grade Point 6) or above  
Attainment 2- 70-79% of students from that particular batch obtained Grade C (Grade Point 6) or above

Attainment 1- 60-69% of students from that particular batch obtained Grade C (Grade Point 6) or above

Attainment 0- Less than 60% of students from that particular batch obtained Grade C (Grade Point 6) or above

- ❖ The Course satisfaction level vs Course attainment was then compared in course-by-course basis.
- ❖ From the comparison matrix, the followings are estimated:
  - ✓ How many courses have fallen below the minimum satisfaction level (Grade Point 6) based on various components on course structure and its recipients' compliance?
  - ✓ How many courses failed to reach highest attainment level (3) ?
  - ✓ How many courses achieved excellent feedback ( $\geq 90\%$ ) as well as highest course attainment ?
- ❖ Then the brief result is communicated to the individual faculty.

**TO WHOM IT MAY CONCERN**

Based on the feedback analysis report and the ATR submitted by Dr. B.C. Roy College of Pharmacy & Allied Health Sciences, Durgapur, WB, India for AY 2018-19, 2019-20 and 2020-21, the following actions have been taken:

- 1) The Curriculum being regulated by Pharmacy Council of India (PCI) is followed.
- 2) However, as a remedial action to improve the quality of the courses, additional MOOCS oriented Choice Based Credit System (CBCS) has been implemented from AY 2018-19 for achieving B. Pharm. with Honours. The college should encourage its students to participate in relevant courses from MOOCS basket as offered by the University. It should also send an annual report on action taken to popularise MOOCS.
