A REPORT ON NSS ACTIVITY/WORLD AIDS DAY
CONDUCTED ON 01.12.22 AT NETAJI OPEN AIR AUDITORIUM

The global HIV response is in danger, even as HIV remains a major public health issue that affects millions of people worldwide. Over the last few years progress towards HIV goals has stalled, resources have shrunk, and millions of lives are at risk as a result. Division, disparity and disregard for human rights are among the failures that allowed HIV to become and remain a global health crisis. On 1 December WHO joins partners to commemorate World AIDS Day 2022, under the theme “Equalize”. WHO is calling on global leaders and citizens to boldly recognize and address the inequalities which are holding back progress in ending AIDS; and equalize access to essential HIV services particularly for children and key populations and their partners - men who have sex with men, transgender people, people who use drugs, sex workers, and people in prisons.

The students of Dr. B. C. Roy College of Pharmacy & Allied Health Sciences also celebrated World Aids Day on 1st December, 2022. The event was celebrated on virtual platform. A poster competition was held on the occasion of the event where the students presented different posters spreading awareness related to HIV.
