

Mandatory Additional Requirement (MAR)

The Mandatory Additional Requirement (MAR) is a requirement for students at the Maulana Abul Kalam Azad University of Technology (MAKAUT) in West Bengal. It's a part of the undergraduate course curriculum and is designed to encourage students to participate in a variety of activities. Hence, in order to prepare its students to match these multiple requirements, MAKAUT, WB has created a unique mechanism of awarding Activity Points over and above the academic grades. It is planned so that the students at MAKAUT, WB would be able to reap benefits from these activities at their own pace and comfort. It is expected that by the time MAKAUT, WB's students reach their final year, they would have developed themselves so well both through their studies in the respective technological field and through their active participation in the co-curricular and extra-curricular activities as also through SAWYAM based learning activities that they would be well-prepared for contributing to building India and the world of their dreams.

100 activity points is given for a four-year degree program.

Every student may choose, as per his/her liking, activities in order to achieve the mandatory points, before becoming eligible for award of the degree. These activities can be spread over the years, as per convenience of the student.
