Dear Sir,

We have pursued the policy for feedback collection and analysis implemented in 2018-19 to the last academic year 2022-2023. In this context, we have collected the feedback for programs (B. Pharma and M. Pharm) for the last academic year (2022-2023) in anonymous mode in through our college website (<https://bcrcp.net/feedback/index.php#>) and analysed the same *vis a vis* a comparison with the course attainments (from semester results of the students), attached herewith for your kind perusal.

As per the policy implemented in 2018-19, course feedbacks were collected and analysed with respect to percentage satisfaction level *vis a vis* course attainment for each course. Overall, it has been observed that both the satisfaction percentage and course attainment have been improved compared to last academic year. We acknowledge the recommendation of MAKAUT for encouraging students to pursue MOOCs based open online course for improvement of the teaching-learning component for the students. The faculty members were also counselled for implementing various newer teaching-learning dimensions for the students.

The document for MOOCs popularization in the institute as well as the outcome have been annexed with this letter. We would like to request you to kindly provide us an Action Taken Report (ATR) from your end based on our submission for further improvement of our courses and its transaction at our institute. It would further help us to comply the norms of regulatory authority such as NAAC, NBA and others.

Regards!
