

Reports on the Add-On courses

- (i) **Effective Communication Skills**
- (ii) **Soft Skills for Pharmacists**
- (iii) **Life Skills for Pharmacists**

Communication skills, soft skills and life skills are essential parts of improving one's ability earn employability and to be a successful professional. Our college has introduced three add-on courses for B. Pharm students for honing the professional abilities. The courses have been developed by our faculty, Mr. Aniruddha Lahiri and are duly approved by the Academic Council of our college. Notices have been issued to let the students know about the courses so that they can enrol on the courses following all the rules and regulations. Twenty students have been enrolled for each course and classes were conducted after the college working hours (after 5.45 p.m.) so that regular syllabus classes are not affected. Most of the students attended the classes regularly with much enthusiasm and gave excellent feedback on those courses. The classes started on 6 November and ended on 12 June. Separate examination was conducted for each course and students are properly graded. All eligible students received certificates on the successful completion of the courses.
