To IC_EXAMS <examinations@bcrcp.org>

Dear Sir,

The questions for CA-2_ Evn Sem_2023-24 look ok and as per Revised Bloom' s taxonomy. They challenge both the informative and analytical thinking skills of the students. I suggest, you may go ahead with this.

Regards,

Dear Sir

This is to bring to your kind notice that the question prompts were extremely direct. Since we are following the Revised Bloom's Taxonomy, we need to follow the highest level of Revised Bloom's Taxonomy that is "CREATE". the question prompt should be also of higher order. Thus, the questions needs revision. Attached below are the examples of question prompts.

Questioning prompts:

- What alternative would you suggest for _____?
- What changes would you make to revise _____?
- How would you explain the reason _____?
- How would you generate a plan to _____?
- What could you invent _____?
- What facts can you gather _____?
- Predict the outcome if _____?
- What would happen if _____?
- How would you portray _____?
- Devise a way to _____.
- How would you compile the facts for _____?
- How would you elaborate on the reason _____?
- How would you improve _____?

PT810A.docx;

Dear Sir,

As per your instruction the question paper of PT 810 A for CA2 examinations has been moderated. Few moderations have been done to align with the college's quality policy.

1. Modification of action verbs to cater to HOTS
2. One similar type of question has been replaced with a different question.

CO Mapping is not done in the question paper, i will send it separately.

Thank you

Soumen Banerjee
