## **Accepted Manuscript**

Biopolymer nanoparticle surface chemistry dictates the nature and extent of protein hard corona

Aalok Basu, Sonia Kundu, Chitra Basu, Sumanta Kumar Ghosh, Runa Sur, Arup Mukherjee

PII: S0167-7322(18)34415-5

DOI: https://doi.org/10.1016/j.molliq.2019.03.016

Reference: MOLLIQ 10557

To appear in: Journal of Molecular Liquids

Received date: 27 August 2018 Revised date: 5 February 2019 Accepted date: 4 March 2019

Please cite this article as: A. Basu, S. Kundu, C. Basu, et al., Biopolymer nanoparticle surface chemistry dictates the nature and extent of protein hard corona, Journal of Molecular Liquids, https://doi.org/10.1016/j.molliq.2019.03.016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
