

EVENT'S REPORT

2020-2021

COVID Awareness Programs

- **Virtual Technical Talk:** Dr. B. C. Roy College of Pharmacy and AHS conducted Awareness campaigns / programmes or public outreach Activities on COVID 19 Vaccination programme relating to promotion of health care including preventive health care and sanitization, promoting education and disaster management as a social responsibility. A webinar on **“To take or not to take??: Myths and Facts about COVID -19 Vaccine”** by Dr. Subrata Biswas, Project Coordinator, Regional Institute (east) for HSS, National AIDS control organization, ICMR was conducted.

The poster is for a technical talk titled "To Take or Not to Take ?? : Myths and Facts about Covid-19 Vaccine" held on 7th April 2021 at 10:30 a.m. IST onwards. The speaker is Dr. Subrata Biswas, Project Coordinator at the Regional Institute (East) for HSS, National AIDS Control Organization, and ICMR. The event includes a quiz and a debate for students. Registration is open until 4th April 2021. The poster also lists a schedule of events from 9:30 a.m. to 4:00 p.m., including registration, a quiz competition, a debate competition, and a certificate distribution. The event is organized by the Faculty of Pharmacy, Dr. B. C. Roy College of Pharmacy & AHS, Durgapur, West Bengal.

- **Wash Basin System Installation** was done near the entrance of the college campus to strictly promote and implement COVID-19 protocol. Students will utilize the hand washing Facility and enter the college premises after thermal screening. To fight against the coronavirus, the administration of Dr. B. C. Roy College of Pharmacy and AHS strongly believe that frequent

hand washing, physical distancing and using masks will help in making the campus free from infection.

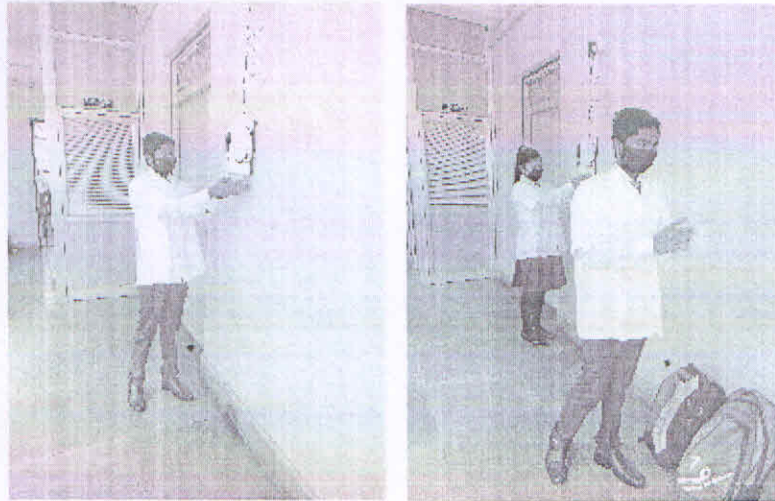

Wash Basin System

Thermal Screening

- **Sanitization System Installation** was done in every floor of the college. So that students are able to sanitize their hands frequently whenever they want to do it. Also we distributed masks to our own students and made them-aware of COVID.
