

REPORT ON BEYOND CAMPUS GREEN INITIATIVES

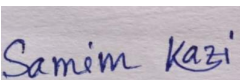

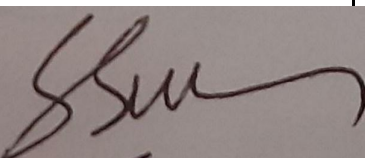

Dr. B. C. Roy College of Pharmacy and Allied Health Sciences, Durgapur strives to inculcate the green awareness among its students through encouragement of tree plantation drives at the student's locality, taking advantage of the Mandatory Additional Requirement (MAR) norms of the University.

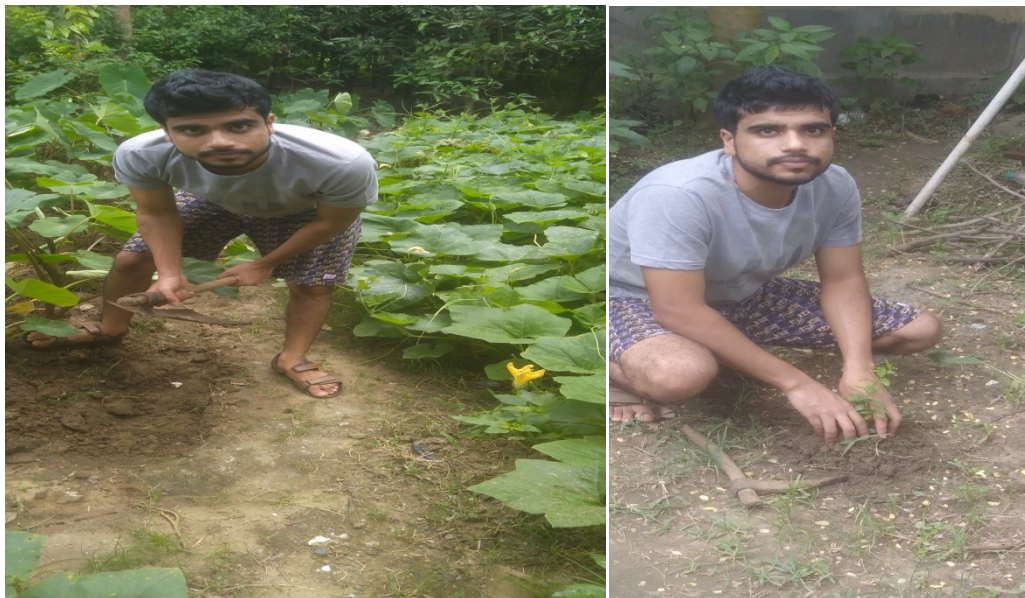

Accordingly, many students over the years, have planted several trees and plants near their native and has contributed to beyond campus green initiatives of the college. Such tree plantation drives are supported and encouraged through the mentors of the college, who try to guide the students to do such activities.

In the enclosed pages, a sample of such activities has been recorded (excerpts taken from the MAR report submitted by respective students to their Mentors).

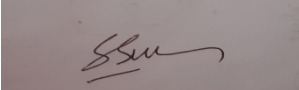

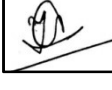

**Tree Plantation at Student's Locality
Samim Kazi (Roll: 18901918121)**

					
	STUDENT	MENTOR	SPOC	PRINCIPAL	

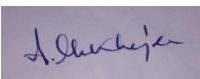

**Tree Plantation at Student's native
Suman Sahana (Roll-18901918002)**

**Tree Plantation at Student's Terrace
Rimpa Karmakar (Roll: 18901919108)**

			
Student	Mentor	SPOC	Principal

**Plantation at Student's locality
Moulik Bhattacharyya (Roll No- 18901918014)**

			
Student	Mentor	SPOC	Principal

**Herb Plantation at Student's Home
Sourav Ghosh (ROLL: 18901919104)**

			
<p>Student</p>	<p>Mentor</p>	<p>SPOC</p>	<p>Principal</p>

The above sample is just an indicator of several such plantation initiatives by the young minds. It is expected that such activities would imbibe the environmental awareness and green practices in the future Pharmacists. This also helps in experiential learning of the subject of Pharmacognosy and Herbal Drugs. These activities are coordinated by the Mentors and often the Pharmacognosy faculty of the college gives useful tips based on the locality of the student to choose which plants (if available) to plant at their locality in order to increase the biodiversity.

This is an ongoing process and every year all students who pass through the portal of the college learn to love their nature through these green initiatives of the college.
