

A 2-day, 19th and 20th April '22, 'Bootcamp on Molecule to Medicine' has been organized in collaboration with M/S Rxcella in the Acarya P C Roy Seminar Hall of the Institute. In this workshop the limited number (45) of students will develop to build their Technical Competency and Behavioral Competency as well. They will understand the journey from Molecule to Medicine (Product Life-Cycle) and will prepare themselves how to crack job in Industry.

Rxcella is headed by Mr. Bedadyuti Chakraborty who is a renowned well experienced and competent person in this field. His attachment with Pharma industries as Consultant, Visiting Scientist etc has made Rxcella a pioneer in imparting to train the students for minimizing the gap in between Academia and Industry.
